## INTRODUCTION

---

I am a highly skilled full-stack engineer with over six years of experience building scalable and maintainable web applications. I am proficient in PHP, WordPress, JavaScript, Node.js, and React.js. I have also mentored junior engineers and enhanced operational efficiency. I am eager to contribute to your team by leveraging my technical skills and providing innovative solutions.

## EXPERIENCE

**OMCBase** - Feb 2022 - Present (3 years)

**FullStack Engineer**

- Designed and created reusable components using WordPress, PHP, and JavaScript, making code easier to maintain and scale, cutting development time by 20%.
- Developed features for both mobile and desktop platforms using WordPress, boosting user experience and operational efficiency, leading to a 50% increase in user satisfaction.
- Utilized critical thinking to solve problems, evaluate solutions, and make decisions, improving operations and service delivery, cutting issue resolution time by 10%.

**Plecco Technologies** - Jun 2020 - Dec 2021 (1 year 7 months)

**Frontend Engineer**

- Revamped front-end application, leading to a significant increase in page visits and improving user engagement.
- Conducted research and presented results, improving efficiency and productivity, and reducing operational costs by 10%.
- Collaborated with team members to develop and implement performance improvement strategies, achieving continuous improvement and increasing team productivity by 10%.

**Stem Disintermedia Inc** - Oct 2018 - Mar 2020 (1 year 6 months)

**FullStack Engineer**

---

- Developed a metric system for tracking song performance on platforms like Deezer and Spotify, enhancing user insights and engagement, and increasing user satisfaction by 30%.
- Created tools to add new platforms without writing code, improving efficiency and scalability, and reducing development time by 10%.
- Coordinated large-scale software deployments, ensuring smooth and efficient operations, and reducing downtime by 20%.

**Andela** Jul 2017 - Apr 2020 (2 years 10 months)

**FullStack Developer**

---

- Collaborated with back-end developers to design APIs and develop functional databases and servers.
- Reviewed code, debug problems, and mentored junior members to boost team skill set.
- Utilized NodeJS, ORM, and SQL/No-SQL to manage databases and develop unit test cases for testing and automation.
- Collaborated with back-end developers to design APIs and develop functional databases and servers.
- Reviewed code, debug problems, and mentored junior members to boost team skill set.
- Utilized NodeJS, ORM, and SQL/No-SQL to manage databases and develop unit test cases for testing and automation.

## TECHNICAL SKILLS

---

Javascript • TypeScript • WordPress • DIVI • Elementor • Search Engine Optimization (SEO) • ReactJs • NodeJs

## EDUCATION

---

**Masinde Muliro University - Kenya**

Information Technology: Computer Science
